

## O2 Awards Wireless Facilities Multi-Million Dollar Contract

SAN DIEGO, Dec 29, 2004 /PRNewswire-FirstCall via COMTEX/ -- Wireless Facilities, Inc. (WFI) (Nasdaq: WFII), a global leader in the design, deployment and management of wireless communication networks, technology networks and security systems, announced today that it has been awarded a multi-million dollar contract to provide 3G radio engineering capability for O2 in the United Kingdom. The contract is part of a program involving multiple sites in the United Kingdom and is anticipated to be completed by third quarter of 2005. Further terms of the award were not disclosed.

"As an industry leader, O2 is committed to working with the strongest partners possible, and we are pleased to have found in WFI the technical strengths that we need to support our 3G program," says Dave Williams, Chief Technical Officer of O2.

"More and more carriers have a need to supplement their engineering resources for their aggressive 3G programs," said Eric M. DeMarco, President and CEO of WFI. "We are pleased to once again be chosen by a major carrier to provide our proven network engineering expertise. This will be the 25th 3G project that we have undertaken in Europe, highlighting our global presence and demonstrating our growing leadership in one of the largest and most sophisticated wireless telecommunications markets in the world."

### About Wireless Facilities

Headquartered in San Diego, CA, Wireless Facilities, Inc. is an independent provider of systems engineering, network services and technical outsourcing for the world's largest wireless carriers, enterprise customers and for government agencies. The company provides the design, deployment, integration, and the overall management of wired and wireless networks which deliver voice and data communication, and which support advanced security systems. WFI has performed work in over 100 countries since its founding in 1994. News and information are available at [www.wfinet.com](http://www.wfinet.com). (code: WFI-mb)

### Notice Regarding Forward-Looking Statements

This news release contains certain forward-looking statements including, without limitation, expressed or implied statements concerning the Company's expectations regarding future financial performance and market developments that involve risks and uncertainties. Such statements are only predictions, and the Company's actual results may differ materially. Factors that may cause the Company's results to differ include, but are not limited to: changes in the scope or timing of the Company's projects; slowdowns in telecommunications infrastructure spending in the United States and globally, which could delay network deployment and reduce demand for the Company's services; the timing, rescheduling or cancellation of significant customer contracts and agreements, or consolidation by or the loss of key customers; the adoption rate of new wireless data services; the rate of adoption of telecom outsourcing by network carriers and equipment suppliers; and competition in the marketplace which could reduce revenues and profit margins.

The Company undertakes no obligation to update any forward-looking statements.

These and other risk factors are more fully discussed in the Company's Annual Report on Form 10-K/A filed on September 20, 2004 and in other filings made with the Securities and Exchange Commission.
