

## **Kratos Receives \$2.6 Million Unmanned Aerial System Program Order**

SAN DIEGO, Feb. 10, 2015 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS), a leading National Security Solutions provider, announced today that its Modular Systems Division (KMSD) recently received a new \$2.6 million order for specialized products in support of a United States National Security related unmanned aerial system program. Kratos is a leading provider of unmanned system aircraft, avionics, electronics, command and control, ground support and transport products, equipment, solutions and services in support of unmanned aerial, ground and sea borne programs, platforms, systems and targets. The equipment to be provided by Kratos in support of this program will be produced in a secure Kratos manufacturing facility. Due to customer related and other considerations, no additional information is being provided related to this contract award.

Tom Mills, President of KMSD, said, "Kratos' Modular Systems Division is a leading provider of specialized products that support many of our country's mission critical national security programs including unmanned systems, missile and radar systems, C4ISR, the electromagnetic rail gun, chemical, biological, radiological, nuclear and explosive (CBRNE) detection systems, surface combatants and hardened facilities. We are proud to support our customer on this important unmanned aerial system program."

### **About Kratos Defense & Security Solutions**

Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS) is a specialized National Security technology Company providing mission critical products, solutions and services for United States National Security. Kratos' core capabilities are sophisticated engineering, manufacturing and system integration offerings for National Security platforms and programs. Kratos' areas of expertise include Command, Control, Communications, Computing, Combat Systems, Intelligence, Surveillance and Reconnaissance (C5ISR), satellite communication systems, electronic warfare, unmanned systems, missile defense, cyber warfare, cybersecurity, information assurance, and critical infrastructure security. Kratos has primarily an engineering and technically oriented work force of approximately 3,600. Substantially all of Kratos' work is performed on a military base, in a secure facility or at a critical infrastructure location. Kratos' primary end customers are National Security related agencies.
