

James T. Savage Joins Wireless Facilities, Inc.

Industry Veteran to Focus on Expanding WFI's Business in Hawaii and Western Region

SAN DIEGO, CA, November 9, 2004- Wireless Facilities, Inc. (NASDAQ: WFII), a global leader in the design, deployment, and management of wireless communication networks and security systems, announced today that it has hired James T. "Jim" Savage. Savage joins the company in the role of Senior Vice President of Corporate Development in the Technical Resources Sector of the Company's Government Services division. In this role, Jim will be responsible for leveraging the company's experience in RF engineering and wireless network design, deployment and management into the growing areas of telecommunications, information technology and Homeland Security applications. Jim will be based out of WFI's Hawaii office, where he will oversee Pacific Rim/Western Regional business development activities.

Jim has more than thirty five years experience serving in both government and private sector roles. He has worked for twenty two years for the federal government, working primarily with the U.S. Department of Defense. He has also worked in senior positions for NAVSEA's Surface Combatant Vertical Launching System, a one billion dollar program. Jim has worked in private industry as Senior Vice President for CACI Technologies, Inc.

"Jim is a tremendous asset to our team in Hawaii," commented Steve Roth, Managing Director of WFI Government Services, Inc. "Hawaii's economy looks strong and we look forward to expanding our presence there. Jim's tremendous experience and established relationships with the Department of Defense will make a significant impact on the future growth of WFI. He also has great marketing instincts and has demonstrated his ability to increase business and expand operations wherever he has served."

The Government Services division of WFI has had an office in Hawaii since 1996 under the name of High Technology Solutions (HTS), which was acquired by WFI as a wholly-owned subsidiary earlier this year. WFI's office provides support to the U.S. Navy's Pacific Missile Range Facility in Kauai, as well as supporting the Marine Corp Base Hawaii (K-Bay), the U.S. Coast Guard, and Command Forces Pacific Fleet.

About Wireless Facilities

Headquartered in San Diego, CA, Wireless Facilities, Inc. is an independent provider of systems engineering, network services and technical outsourcing for the world's largest wireless carriers, enterprise customers and for government agencies. The company provides the design, deployment, integration, and the overall management of wired and wireless networks which deliver voice and data communication, and which support advanced security systems. WFI has performed work in over 100 countries since its founding in 1994. News and information are available at www.wfinet.com. (code: WFI-mb)

Editor's Note: WFI's Hawaii office is located at Pacific Guardian Center, 737 Bishop Street, Suite 2070, Honolulu, HI 96813.
