

## **Kratos Announces Cyber Battlefield Related Network Management Contract Awards**

### **Kratos Proprietary NeuralStar(R) and dopplerVUE(R) Products Provide Real Time Situational Awareness in Today's Hostile Cyber Environment**

SAN DIEGO, Jul 12, 2010 (GlobeNewswire via COMTEX News Network) -- Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS), a leading National Security Solutions provider, today announced new contract awards for its flagship network management and situational awareness products, NeuralStar(R) and dopplerVUE(R), from two unnamed National Security and defense-focused agencies of the United States.

"These wins continue a trend of recent successes for Kratos' Network Management, Situational Awareness and Cyber Security products," said Mike Smith, General Manager of Kratos Networks. "In both of these new contract awards, Kratos' products will have the same core mission -- supporting America's Warfighters with the reliable network operations needed in today's cyber battlefield."

Kratos Networks Division delivers products and services that assure the availability, reliability and security of network-centered organizations. The Kratos Management Platform provides underlying technology for the company's two flagship products, NeuralStar(R), an enterprise-class IT management solution that integrates data across distributed networks, and dopplerVUE(R), an easy to use network monitoring and management tool that brings enterprise-grade features to field and tactical networks of any size.
