

Kratos Receives \$40 Million in Satellite Communication System, Earth Station and Ground Equipment Contract Awards

SAN DIEGO, Dec. 30, 2014 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS), a leading National Security Solutions provider, announced today that it has recently received three contract awards with a total value of approximately \$40 million for satellite communication earth stations, command and control systems and other satellite communication related products and services.

Kratos is a leading provider of satellite ground segment solutions, including Command & Control, Signal Processing & Communications, RF Interference Mitigation, Carrier Monitoring, Satellite & Terrestrial Network Management, Service Quality Management and Global Managed SATCOM Services for the United States and its allied national security agencies, as well as commercial customers around the globe.

"These three awards include a broad range of products, application areas and solutions, reflecting Kratos' leadership across the entire satellite ground segment," commented Phil Carrai, President of Kratos' Technology & Training Solutions Division. "We are proud to have the confidence of these customers in supporting their critical satellite communications requirements."

About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS) is a specialized National Security technology Company providing mission critical products, solutions and services for United States National Security. Kratos' core capabilities are sophisticated engineering, manufacturing and system integration offerings for National Security platforms and programs. Kratos' areas of expertise include Command, Control, Communications, Computing, Combat Systems, Intelligence, Surveillance and Reconnaissance (C5ISR), satellite communication systems, electronic warfare, unmanned systems, missile defense, cyber warfare, cybersecurity, information assurance, and critical infrastructure security. Kratos has primarily an engineering and technically oriented work force of approximately 3,600. Substantially all of Kratos' work is performed on a military base, in a secure facility or at a critical infrastructure location. Kratos' primary end customers are National Security related agencies.
