

Kratos Sponsors AFCEA / SPAWAR Systems Center Pacific 2011 C4ISR Symposium Showcasing Kratos' Information Dominance Technologies and Cyber Products

SAN DIEGO, March 17, 2011 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS), a leading National Security Solutions provider, today announced it will be a Bronze Level Sponsor of the annual C4ISR Symposium <http://c4isr.afcea-sd.org/> in San Diego, California. The 2011 C4ISR Symposium, which will be held April 5-8, 2011, is co-hosted by the Armed Forces Communications and Electronics Association (AFCEA) San Diego Chapter and SPAWAR Systems Center Pacific (SSC-Pacific). This year's 2011 C4ISR Symposium theme is "Assuring Information Dominance in a Denied C4ISR Environment." As a sponsor of this year's event, Kratos will be displaying two of its network management and protection products, as well as showcasing its Net-Centric Software Development, Cyber Security, and Information Assurance services. These products and services protect the critical infrastructure America relies upon daily.

Vic Wilson, Senior Vice President of Engineering and Analysis in the Kratos Defense Engineering Solutions Division, said, "Supporting the 2011 C4ISR Symposium gives Kratos the opportunity to display our advanced solutions to decision-makers and to display our support efforts for key customers."

Dave Carter, President of Kratos' Defense Engineering Solutions, said, "We are very pleased to have this opportunity to build our relationship with SSC-Pacific and the AFCEA San Diego Chapter by being one of this year's sponsors."

About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS) is a specialized National Security business providing mission critical products, services and solutions for United States National Security priorities. Kratos' core capabilities are sophisticated engineering, manufacturing and system integration offerings for National Security platforms and programs. Kratos' areas of expertise include Command, Control, Communications, Computing, Combat Systems, Intelligence, Surveillance and Reconnaissance (C5ISR), unmanned systems, cyber warfare, cyber security, information assurance, critical infrastructure security and weapons systems sustainment. Kratos has primarily an engineering and technical oriented work force of approximately 2900, the majority of which hold an active National Security clearance, including Secret, Top Secret and higher. The vast majority of Kratos' work is performed on a military base, in a secure facility or at a critical infrastructure location. Kratos' primary end customers are United States Federal Government agencies, including the Department of Defense, classified agencies, intelligence agencies and Homeland Security related agencies.
