

Kratos Awarded a \$499 Million Multiple Award, Indefinite-Delivery/Indefinite-Quantity Contract for the Design, Build, Test, and Delivery of Functioning Anti-Tamper Solutions

March 4, 2024

SAN DIEGO, March 04, 2024 (GLOBE NEWSWIRE) -- [Kratos Defense & Security Solutions, Inc.](#) (Nasdaq: KTOS), a Technology Company in Defense, National Security and Global Markets, announced today that it has been awarded a \$499,000,000 multiple award, indefinite-delivery/indefinite-quantity contract for the design, build, test, and delivery of functioning anti-tamper solutions that will be ready for follow-on production to be integrated into a broad range of Department of Defense programs. The development of these solutions enables the necessary protection of critical program information from adversarial tamper efforts. Work will be performed in the continental United States and is expected to be completed February 28, 2030. This contract was a competitive acquisition, and twenty offers were received. The Air Force Life Cycle Management, Wright Patterson Air Force Base, Ohio, is the contracting activity.

Kratos SRE is a technology business focused on strategic deterrence systems, missiles, space and satellite communications, exotic material test and analysis, intelligence, surveillance and reconnaissance, hypersonic platforms, trusted and assured microelectronics, anti-tamper technology and other platforms and systems.

Michael Johns, President of Kratos SRE, said, "This recent award provides Kratos access to a new contractual channel and new customers for certain of our most sophisticated technology and products, specifically related to the protection of mission critical national security programs and systems from tampering efforts."

About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (NASDAQ: KTOS) is a technology, products, system and software company addressing the defense, national security, and commercial markets. Kratos makes true internally funded research, development, capital and other investments, to rapidly develop, produce and field solutions that address our customers' mission critical needs and requirements. At Kratos, affordability is a technology, and we seek to utilize proven, leading edge approaches and technology, not unproven bleeding edge approaches or technology, with Kratos' approach designed to reduce cost, schedule and risk, enabling us to be first to market with cost effective solutions. We believe that Kratos is known as an innovative disruptive change agent in the industry, a company that is an expert in designing products and systems up front for successful rapid, large quantity, low cost future manufacturing which is a value add competitive differentiator for our large traditional prime system integrator partners and also to our government and commercial customers. Kratos intends to pursue program and contract opportunities as the prime or lead contractor when we believe that our probability of win (PWin) is high and any investment required by Kratos is within our capital resource comfort level. We intend to partner and team with a large, traditional system integrator when our assessment of PWin is greater or required investment is beyond Kratos' comfort level. Kratos' primary business areas include virtualized ground systems for satellites and space vehicles including software for command & control (C2) and telemetry, tracking and control (TT&C), jet powered unmanned aerial drone systems, hypersonic vehicles and rocket systems, propulsion systems for drones, missiles, loitering munitions, supersonic systems, space craft and launch systems, C5ISR and microwave electronic products for missile, radar, missile defense, space, satellite, counter UAS, directed energy, communication and other systems, and virtual & augmented reality training systems for the warfighter.
