

Kratos Receives Approximate \$30 Million Sole Source Air Defense System Hardware Production Award

April 17, 2025

SAN DIEGO, April 17, 2025 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (NASDAQ: KTOS), a technology company in the defense, national security and global markets, announced today that it has received an approximate \$30 million Sole Source Air Defense System Hardware Production award. Kratos is an industry leading designer, engineer and manufacturer of military grade hardware, at quantity, in support of United States air defense, hypersonic, propulsion, high-performance jet drones and other mission critical National Security related systems. Work under this production award will be performed at a secure Kratos manufacturing facility. Due to competitive, security related and other considerations, no additional information will be provided related to this award.

Eric DeMarco, President and CEO of Kratos, said, "Kratos is a recognized industry leader in designing, engineering and manufacturing military grade hardware for weapon systems—systems that have to work every time for our warfighters, partners and customers. Kratos' C5ISR business unit is currently under contract and in large scale production on multiple hypersonic, missile, radar, and air defense related systems, including this program award we announced today. Our entire Company is proud to have been selected to produce and provide this critical air defense system hardware for this United States National Security customer."

About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (NASDAQ: KTOS) is a technology, products, system and software company addressing the defense, national security, and commercial markets. Kratos makes true internally funded research, development, capital and other investments, to rapidly develop, produce and field solutions that address our customers' mission critical needs and requirements. At Kratos, affordability is a technology, and we seek to utilize proven, leading edge approaches and technology, not unproven bleeding edge approaches or technology, with Kratos' approach designed to reduce cost, schedule and risk, enabling us to be first to market with cost effective solutions. We believe that Kratos is known as an innovative disruptive change agent in the industry, a company that is an expert in designing products and systems up front for successful rapid, large quantity, low cost future manufacturing which is a value add competitive differentiator for our large traditional prime system integrator partners and also to our government and commercial customers. Kratos intends to pursue program and contract opportunities as the prime or lead contractor when we believe that our probability of win (PWin) is high and any investment required by Kratos is within our capital resource comfort level. We intend to partner and team with a large, traditional system integrator when our assessment of PWin is greater or required investment is beyond Kratos' comfort level. Kratos' primary business areas include virtualized ground systems for satellites and space vehicles including software for command & control (C2) and telemetry, tracking and control (TT&C), jet powered unmanned aerial drone systems, hypersonic vehicles and rocket systems, propulsion systems for drones, missiles, loitering munitions, supersonic systems, space craft and launch systems, C5ISR and microwave electronic products for missile, radar, missile defense, space, satellite, counter UAS, directed energy, communication and other systems, and virtual & augmented reality training systems for the warfighter.
