

Kratos Opens New 10,000 Sq Ft Facility for Engine Overhaul Business in British Columbia

December 5, 2025

SAN DIEGO, Dec. 05, 2025 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (NASDAQ: KTOS), a leader in defense, national security and global markets, today announced the opening of its new state-of-the-art 10,000 square foot facility for PT6A and PT6T engine overhaul in Vancouver, British Columbia—a significant milestone in the company's continued growth and innovative support of the PT6A and PT6T engine market. This modern space has been designed to enhance operational efficiency, foster collaboration, and provide the infrastructure needed to meet the evolving demands of the industry. The expansion underscores Kratos' commitment to delivering cutting -edge solutions and ensuring that its teams have the resources required to drive excellence across all areas of operation.

The new facility also strengthens Kratos' Bristow, Oklahoma operations, enabling expanded capabilities and improved service delivery for Canadian operators. By investing in advanced technology and increased capacity, Kratos' Consolidated Turbines divisions in Canada and Oklahoma are better positioned to support its partners with greater responsiveness, reliability, and scalability. This move reflects the company's dedication to building strong international relationships and providing unmatched support to operators across North America, reinforcing its role as a trusted leader in the PT6T and PT6A industry.

"This move will create seemingly endless possibilities with regards to expansion, employment and in-house capabilities. We are fortunate to have many long-standing Bell Medium customers in Canada, which operate the PT6T model engines. Our goal is to add the fixed wing version (PT6A models) to our quiver in the near future," said **Dave Wark, Director of Kratos MRO Canada**.

CTS Canada started 20 years ago to support PT6 maintenance, repair, and overhaul in Langley, BC. Now a Kratos business, the company has grown significantly with its third expansion in less than ten years that provides the opportunity to support customers better than ever before, a testament to Kratos' great team that works tirelessly to keep customers flying.

About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (NASDAQ: KTOS) is a technology, products, system and software company addressing the defense, national security, and commercial markets. Kratos makes true internally funded research, development, capital and other investments, to rapidly develop, produce and field solutions that address our customers' mission critical needs and requirements. At Kratos, affordability is a technology, and we seek to utilize proven, leading edge approaches and technology, not unproven bleeding edge approaches or technology, with Kratos' approach designed to reduce cost, schedule and risk, enabling us to be first to market with cost effective solutions. We believe that Kratos is known as an innovative disruptive change agent in the industry, a company that is an expert in designing products and systems up front for successful rapid, large quantity, low-cost future manufacturing which is a value add competitive differentiator for our large traditional prime system integrator partners and also to our government and commercial customers. Kratos intends to pursue program and contract opportunities as the prime or lead contractor when we believe that our probability of win (PWin) is high and any investment required by Kratos is within our capital resource comfort level. We intend to partner and team with a large, traditional system integrator when our assessment of PWin is greater or required investment is beyond Kratos' comfort level. Kratos' primary business areas include virtualized ground systems for satellites and space vehicles including software for command & control (C2) and telemetry, tracking and control (TT&C), jet powered unmanned aerial drone systems, advanced vehicles and rocket systems, propulsion systems for drones, missiles, loitering munitions, supersonic systems, space craft and launch systems, C5ISR and microwave electronic products for missile, radar, missile defense, space, satellite, counter UAS, directed energy, communication and other systems, and virtual & augmented reality training systems for the warfighter.
