

Kratos Receives Approximately \$30 Million in Air Defense and C5ISR System National-Security-Related Hardware Production Contracts

December 29, 2025

SAN DIEGO, Dec. 29, 2025 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (NASDAQ: KTOS), a leader in defense, national security and global markets, announced today that it has recently received approximately \$30 million in Air Defense and C5ISR system national-security-related, military-grade custom hardware production contracts. Kratos is an industry leader in the development, engineering, design, and large-scale production of military-grade hardware and integrated systems for missile, radar, counter-UAS, hypersonic, directed energy, satellite communication, and other complex systems. Work performed under the recent contract awards will be performed in secure Kratos manufacturing facilities.

Tom Mills, President of Kratos' C5ISR Division, said, "Our entire team is honored to have our customers' confidence in our ability to engage early in the systems' design phase to collaborate with our customers on system-level engineering and design, provide highly engineered custom systems and solutions, large-scale manufacturing, at an affordable cost, for these urgent, relevant, and mission critical systems. Kratos is the recognized industry leader in delivering military-grade hardware and systems in direct support of America's National Security requirements."

Eric DeMarco, President and CEO of Kratos, said, "Delivering relevant, military-grade hardware on time, on schedule, and that works every time is hard, and Kratos' demonstrated capability to continuously do so is a differentiator for our Company to our customers and partners. Kratos is currently in high volume, mass production on multiple hypersonic, counter-UAS, missile, radar and other systems, and we are proud to be the clear industry leader in our mil-spec hardware areas of expertise."

Due to competitive, security related and other considerations, no additional information will be provided.

About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (NASDAQ: KTOS) is a technology, products, system and software company addressing the defense, national security, and commercial markets. Kratos makes true internally funded research, development, capital and other investments, to rapidly develop, produce and field solutions that address our customers' mission critical needs and requirements. At Kratos, affordability is a technology, and we seek to utilize proven, leading edge approaches and technology, not unproven bleeding edge approaches or technology, with Kratos' approach designed to reduce cost, schedule and risk, enabling us to be first to market with cost effective solutions. We believe that Kratos is known as an innovative disruptive change agent in the industry, a company that is an expert in designing products and systems up front for successful rapid, large quantity, low-cost future manufacturing which is a value add competitive differentiator for our large traditional prime system integrator partners and also to our government and commercial customers. Kratos intends to pursue program and contract opportunities as the prime or lead contractor when we believe that our probability of win (PWin) is high and any investment required by Kratos is within our capital resource comfort level. We intend to partner and team with a large, traditional system integrator when our assessment of PWin is greater or required investment is beyond Kratos' comfort level. Kratos' primary business areas include virtualized ground systems for satellites and space vehicles including software for command & control (C2) and telemetry, tracking and control (TT&C), jet powered unmanned aerial drone systems, advanced vehicles and rocket systems, propulsion systems for drones, missiles, loitering munitions, supersonic systems, space craft and launch systems, C5ISR and microwave electronic products for missile, radar, missile defense, space, satellite, counter UAS, directed energy, communication and other systems, and virtual & augmented reality training systems for the warfighter.
