

Kratos Recently Received Aviation System and Related Warfighter Contract Awards with Total Potential Value of Approximately \$65 Million

February 3, 2026

Contracts Include Awards from the U.S. Department of War and Allied Nations

SAN DIEGO, Feb. 03, 2026 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (Nasdaq: KTOS), a technology company in Defense, National Security and Global Markets, today announced that Kratos has been awarded contracts valued in total at approximately \$65 million to design, develop and deliver simulators and other solutions for warfighter training supporting operations and maintenance of key aircraft and other platforms.

The Kratos-built training systems support a wide variety of knowledge sets across numerous aircraft, including the Army's CH47F Chinook and UH-60M Blackhawk helicopters, the Airforce's UH-1 Huey and more. Contracts include awards from the U.S. Department of War as well as allied nations, including purchases of Kratos' MBRAT simulator, a unique system that enables avionics maintenance training for multiple platforms on a single device, requiring a substantially lower financial investment while achieving training goals and proficiencies.

According to **Jose Diaz, SVP of Kratos Training Solutions**, "2025 was another growth year for Kratos, particularly in the domain of air-based system platforms. Our customers deeply appreciate our successful delivery of cost-effective solutions that produce highly effective training outcomes. Proven experience incorporating all immersive reality technologies on simulators—from augmented reality to fully virtual—and incorporating Kratos' advanced Mixed Reality technology enables us to apply the most suitable options to each training challenge."

In addition to aviation training systems, throughout 2025, the company continued to deliver simulation and training solutions in support of ground combat systems, subsurface naval combat vessels, surface navy combat systems, naval weapon systems and unmanned combat aerial systems to customers.

About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (NASDAQ: KTOS) is a technology, products, system and software company addressing the defense, national security, and commercial markets. Kratos makes true internally funded research, development, capital and other investments, to rapidly develop, produce and field solutions that address our customers' mission critical needs and requirements. At Kratos, affordability is a technology, and we seek to utilize proven, leading edge approaches and technology, not unproven bleeding edge approaches or technology, with Kratos' approach designed to reduce cost, schedule and risk, enabling us to be first to market with cost effective solutions. We believe that Kratos is known as an innovative disruptive change agent in the industry, a company that is an expert in designing products and systems up front for successful rapid, large quantity, low-cost future manufacturing which is a value add competitive differentiator for our large traditional prime system integrator partners and also to our government and commercial customers. Kratos intends to pursue program and contract opportunities as the prime or lead contractor when we believe that our probability of win (PWin) is high and any investment required by Kratos is within our capital resource comfort level. We intend to partner and team with a large, traditional system integrator when our assessment of PWin is greater or required investment is beyond Kratos' comfort level. Kratos' primary business areas include virtualized ground systems for satellites and space vehicles including software for command & control (C2) and telemetry, tracking and control (TT&C), jet powered unmanned aerial drone systems, advanced vehicles and rocket systems, propulsion systems for drones, loitering munitions, supersonic systems, space craft and launch systems, C5ISR and microwave electronic products for missile, radar, missile defense, space, satellite, counter UAS, directed energy, communication and other systems, and virtual & augmented reality training systems for the warfighter.
