Kratos Receives $7 Million Order for Counter-UAS Systems

March 3, 2026

Recent Award is Related to Long-term Counter-UAS Production Contract

SAN DIEGO, March 03, 2026 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (Nasdaq: KTOS), a technology company in Defense, National Security and Global Markets, today announced that it has recently received an approximate $7 million Production Contract Award for a Counter-UAS System designed to detect, track and classify threats, including low-profile unmanned aerial systems, cruise missiles, and other aerial systems. Kratos is an industry leading provider of military-grade hardware for air defense, missile, radar, hypersonic, strategic, directed energy and other systems. Work under this program award will be performed in a secure Kratos manufacturing facility. Due to security related and other considerations, no additional information will be provided.

Eric DeMarco, Kratos President and CEO, said, “Manufacturing military-grade hardware in large scale production runs, that must work every time, is hard and a clear differentiator of Kratos to our partners and customers. Drones, missiles, loitering munitions and other aerial threats are rapidly proliferating globally by our adversaries, and Kratos is proud to manufacture the systems to defend and protect our warfighters.”

About Kratos Defense & Security Solutions
Kratos Defense & Security Solutions, Inc. (NASDAQ: KTOS) is a technology, products, system and software company addressing the defense, national security, and commercial markets. Kratos makes true internally funded research, development, capital and other investments, to rapidly develop, produce and field solutions that address our customers’ mission critical needs and requirements. At Kratos, affordability is a technology, and we seek to utilize proven, leading edge approaches and technology, not unproven bleeding edge approaches or technology, with Kratos’ approach designed to reduce cost, schedule and risk, enabling us to be first to market with cost effective solutions. We believe that Kratos is known as an innovative disruptive change agent in the industry, a company that is an expert in designing products and systems up front for successful rapid, large quantity, low-cost future manufacturing which is a value add competitive differentiator for our large traditional prime system integrator partners and also to our government and commercial customers. Kratos intends to pursue program and contract opportunities as the prime or lead contractor when we believe that our probability of win (PWin) is high and any investment required by Kratos is within our capital resource comfort level. We intend to partner and team with a large, traditional system integrator when our assessment of PWin is greater or required investment is beyond Kratos’ comfort level. Kratos’ primary business areas include virtualized ground systems for satellites and space vehicles including software for command & control (C2) and telemetry, tracking and control (TT&C), jet powered unmanned aerial drone systems, advanced vehicles and rocket systems, propulsion systems for drones, missiles, loitering munitions, supersonic systems, space craft and launch systems, C5ISR and microwave electronic products for missile, radar, missile defense, space, satellite, counter UAS, directed energy, communication and other systems, and virtual & augmented reality training systems for the warfighter.
