

Kratos Receives \$5.8 Million Critical Infrastructure Contract Award

New Contract Award is Phase One of Expected Multi-Phase Communication System Deployment for Healthcare Campus

SAN DIEGO, Nov. 13, 2013 (GLOBE NEWSWIRE) -- [Kratos Defense & Security Solutions, Inc.](#) (Nasdaq:KTOS), a leading National Security Solutions provider, announced today that its Public Safety & Security Division (PSS) recently received a \$5.8 million contract award for the deployment of a specialized communication system at a large regional hospital facility and campus. Under the new contract award, PSS will design, engineer, deploy and integrate into command and control infrastructure a state of the art communication system. This award represents the initial phase of what is currently expected to be a multi-phased comprehensive communications system deployment. Due to customer specific and other considerations, no additional information will be provided related to this contract award.

Ben Goodwin, President of Kratos' PSS Division, said, "We are proud to be the selected security system integrator for this new customer. PSS is a recognized leader in the deployment and system integration of specialized security and communication systems for some of this nation's largest and most important hospitals, healthcare providers and related facilities and campuses, and we are well positioned to serve this rapidly growing market's security, safety and specialized communication needs. Kratos' PSS Division has generated year-to-date year-over-year revenue growth of approximately 12 percent, and we are currently forecasting year-over-year growth of approximately 15 percent for our fiscal fourth quarter, with our healthcare security and safety practice being a key element of our future growth plans."

About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS) is a specialized National Security technology Company providing mission critical products, services and solutions for United States National Security. Kratos' core capabilities are sophisticated engineering, manufacturing and system integration offerings for National Security platforms and programs. Kratos' areas of expertise include Command, Control, Communications, Computing, Combat Systems, Intelligence, Surveillance and Reconnaissance (C5ISR), satellite communication systems, electronic warfare, unmanned systems, missile defense, cyber warfare, cybersecurity, information assurance, and critical infrastructure security. Kratos has primarily an engineering and technically oriented work force of approximately 3,900. The vast majority of Kratos' work is performed on a military base, in a secure facility or at a critical infrastructure location. Kratos' primary end customers are National Security related agencies.
