

Kratos Receives \$8 Million Single Award Contract to Deploy Specialized Security and Surveillance System to Protect Critical Infrastructure Site in Major U.S. Metropolitan Location

Security and Surveillance System Elements to be Integrated Into a Comprehensive Command and Control System Network

SAN DIEGO, Feb. 28, 2012 (GLOBE NEWSWIRE) -- [Kratos Defense & Security Solutions, Inc.](http://www.kratosdefense.com) (Nasdaq:KTOS), a leading National Security Solutions provider, announced today that its Public Safety & Security business has recently received an \$8 million single award contract to design, engineer and deploy a specialized security and surveillance system at a critical infrastructure site in a major metropolitan location in the United States. The sophisticated security and surveillance system will include specialized cameras which will utilize state of the art analytics technology, access control and protection assets, communication infrastructure and other security elements, all of which will be integrated into a command and control center and network to provide complete situational awareness of the security environment at this location. Due to the sensitivity of this security deployment, customer related and other considerations, no further information will be provided relative to this contract award.

Ben Goodwin, President of Kratos' Public Safety & Security Division, said, "We are honored to have been selected to deploy this critical security and surveillance system at this prominent strategic asset location. I believe that I can speak for every Kratos and PSS employee in saying that we are proud to be at the forefront of providing security for the United States Homeland and helping protect the critical infrastructure and strategic assets in our country."

About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS) is a specialized National Security technology business providing mission critical products, services and solutions for United States National Security priorities. Kratos' core capabilities are sophisticated engineering, manufacturing and system integration offerings for National Security platforms and programs. Kratos' areas of expertise include Command, Control, Communications, Computing, Combat Systems, Intelligence, Surveillance and Reconnaissance (C5ISR), satellite communication systems, unmanned systems, cyber warfare, cyber security, information assurance, critical infrastructure security and weapons systems sustainment. Kratos has primarily an engineering and technical oriented work force of approximately 4,000, many of whom hold an active National Security clearance, including Secret, Top Secret and higher. The vast majority of Kratos' work is performed on a military base, in a secure facility or at a critical infrastructure location. Kratos' primary end customers are United States Federal Government agencies, including the Department of Defense, classified agencies, intelligence agencies and Homeland Security related agencies.
