

WFI Government Services, Inc. Awarded Blanket Purchase Agreement to Supply Passive RFID Technology for DoD Initiative

MANASSAS, Va., May 16, 2005 /PRNewswire-FirstCall via COMTEX/ -- Wireless Facilities, Inc. (WFI) (Nasdaq: WFII), a global leader in the design, deployment, and management of wireless communication networks, technology networks and security systems, announced today that the Logistics and RFID sector of its Government Division has been awarded Blanket Purchase Agreements to provide Radio Frequency Identification (RFID) readers to enable and accelerate implementation of passive RFID technology in support to the U.S. Department of Defense (DoD).

"This the first phase of a long-term initiative to implement RFID technology throughout the DoD's supply chain," stated Steve Roth, President of WFI Government Services. "Given our in-house RFID expertise and open architecture, our multiple vendor approach to RFID solutions, and our longstanding relationships with various DoD agencies, we are well positioned to continue to grow our federal RFID business."

The RFID technology available through WFI meets all of the DoD's requirements in the fixed reader category. The contracts authorizing DoD agencies to purchase from WFI were awarded by the Army Contracting Agency Information Technology, E-Commerce and Commercial Contracting Center (ITEC4).

About WFI

Headquartered in San Diego, CA, WFI, is an independent provider of systems engineering, network services and technical outsourcing for the world's largest wireless carriers, enterprise customers and for government agencies. The company provides the design, deployment, integration, and the overall management of wired and wireless networks which deliver voice and data communication, and which support advanced security systems. WFI Government Services, Inc. is a wholly owned subsidiary of WFI. RFID is one of the company's chief areas of expertise, with complete RFID services that leverage the firm's functional understanding of the supply chain and logistics processes with its core competency in data integration and synchronization. WFI has performed work in over 100 countries since its founding in 1994. News and information are available at www.wfinet.com. (code: WFI-mb)

Notice Regarding Forward-Looking Statements

This news release contains certain forward-looking statements including, without limitation, expressed or implied statements concerning the Company's expectations regarding future financial performance and market developments that involve risks and uncertainties. Such statements are only predictions, and the Company's actual results may differ materially. Factors that may cause the Company's results to differ include, but are not limited to: changes in the scope or timing of the Company's projects; slowdowns in telecommunications infrastructure spending in the United States and globally, which could delay network deployment and reduce demand for the Company's services; the timing, rescheduling or cancellation of significant customer contracts and agreements, or consolidation by or the loss of key customers; the adoption rate of new wireless data services; financial constraints on our customers that could cause us to write off accounts receivable or terminate contracts; failure to successfully consummate acquisitions or integrate acquired operations; changes in the Company's effective income tax rate; the rate of adoption of telecom outsourcing by network carriers and equipment suppliers; the rate of growth of adoption of WLAN and wireless security systems by enterprises; and competition in the marketplace which could reduce revenues and profit margins. The Company undertakes no obligation to update any forward-looking statements. These and other risk factors are more fully discussed in the Company's Annual Report on Form 10-K filed on March 31, 2005 and in other filings made with the Securities and Exchange Commission.
