

Kratos Receives \$8.8 Million in National Security Program Related Product Orders From United States Government Agency

SAN DIEGO, Oct. 7, 2013 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS), a leading National Security Solutions provider, announced today that its Modular Systems (MS) Division has recently received approximately \$8.8 million in orders from a certain United States Government Agency for specialized products in support of a National Security related program. The products and equipment Kratos will be providing under this program will be fabricated and produced in secure Kratos manufacturing facilities. Due to specific customer related and other considerations, no additional information will be provided related to this National Security related program and these recent product orders.

Tom Mills, President of Kratos' MS Division, said, "Kratos' MS Division has unique capabilities in designing, engineering, manufacturing and delivering to our National Security related customers sophisticated products that meet or exceed their specific program related requirements, including in the unmanned aerial system, intelligence, surveillance and reconnaissance and other areas. Our entire MS Division team is honored to have received these recent contact awards in support of this Government Agency's National Security related requirements."

About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS) is a specialized National Security technology Company providing mission critical products, services and solutions for United States National Security. Kratos' core capabilities are sophisticated engineering, manufacturing and system integration offerings for National Security platforms and programs. Kratos' areas of expertise include Command, Control, Communications, Computing, Combat Systems, Intelligence, Surveillance and Reconnaissance (C5ISR), satellite communication systems, electronic warfare, unmanned systems, missile defense, cyber warfare, cybersecurity, information assurance, and critical infrastructure security. Kratos has primarily an engineering and technically oriented work force of approximately 3,900. The vast majority of Kratos' work is performed on a military base, in a secure facility or at a critical infrastructure location. Kratos' primary end customers are National Security related agencies.
