

Kratos Awarded Multi-Million Dollar Contract to Maintain Critical Infrastructure Security System at Strategic Asset Location in the United States

SAN DIEGO, Dec. 8, 2011 (GLOBE NEWSWIRE) -- [Kratos Defense & Security Solutions, Inc.](#) (Nasdaq:KTOS), a leading National Security Solutions provider, announced today it has been awarded a contract to maintain a sophisticated security system and network at a critical infrastructure site in the United States. The base period of the security system services contract award is three years, plus two additional three-year option periods, bringing the total potential term of the contract to nine years, assuming both options are exercised. The potential value of this contract to Kratos, including both option periods, is several million dollars. The security system that Kratos will be maintaining is at a certain United States Federal Government location. Due to certain specific customer related and other sensitivities, no additional information will be provided.

Ben Goodwin, President of Kratos Public Safety & Security division, said, "We are proud to be providing critical security solutions and services at our country's most important and high profile locations. This contract award by this important long term Kratos customer demonstrates the confidence certain agencies have in our security system capabilities to protect this country's most sensitive assets. All of Kratos and the entire PSS team are committed to protecting critical United States' assets and infrastructure."

About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS) is a specialized National Security technology business providing mission critical products, services and solutions for United States National Security priorities. Kratos' core capabilities are sophisticated engineering, manufacturing and system integration offerings for National Security platforms and programs. Kratos' areas of expertise include Command, Control, Communications, Computing, Combat Systems, Intelligence, Surveillance and Reconnaissance (C5ISR), satellite communication systems, unmanned systems, cyber warfare, cyber security, information assurance, critical infrastructure security and weapons systems sustainment. Kratos has primarily an engineering and technical oriented work force of approximately 3,900, many of whom hold an active National Security clearance, including Secret, Top Secret and higher. The vast majority of Kratos' work is performed on a military base, in a secure facility or at a critical infrastructure location. Kratos' primary end customers are United States Federal Government agencies, including the Department of Defense, classified agencies, intelligence agencies and Homeland Security related agencies.
