## **Kratos Receives \$4 Million Product Order to Support Electronic Warfare Program**

SAN DIEGO, Jan. 15, 2014 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS), a leading National Security Solutions provider, announced today that its EWsT business unit in the Electronic Products (EP) Division has recently received a \$4 million contract award to provide specialized simulation products in support of an electronic warfare program. Kratos' Electronic Product Division is a leading provider of RF, Microwave, DRFM and other specialized products that support national security related platforms and programs. Due to customer related and other considerations, no additional information will be provided related to this contract award.

John Chester-Parsons, site director of Kratos' EWsT, said, "Our entire team is proud to have received this recent award in support of this important customer. EWsT is a recognized leader in electronic warfare simulation and test systems. Major orders in the last month totaling over \$9M by multiple customers and multiple nations validate the capability of our products to support test requirements for next generation systems. Customers benefit from the high performance and modularity of our simulators, as well as our commitment to customer service and support. "

### **About Kratos Defense & Security Solutions**

Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS) is a specialized National Security technology Company providing mission critical products, services and solutions for United States National Security. Kratos' core capabilities are sophisticated engineering, manufacturing and system integration offerings for National Security platforms and programs. Kratos' areas of expertise include Command, Control, Communications, Computing, Combat Systems, Intelligence, Surveillance and Reconnaissance (C5ISR), satellite communication systems, electronic warfare, unmanned systems, missile defense, cyber warfare, cybersecurity, information assurance, and critical infrastructure security. Kratos has primarily an engineering and technically oriented work force of approximately 3,850. The vast majority of Kratos' work is performed on a military base, in a secure facility or at a critical infrastructure location. Kratos' primary end customers are National Security related agencies.
