Kratos Awarded Contract for Aerial Gunnery Simulator Training Services from the Swedish Armed Forces

SAN DIEGO, Sept. 02, 2016 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS), a leading National Security Solutions provider, announced today that it was awarded a contract to provide helicopter aerial gunnery training for the Swedish Armed Forces at the Kratos Aircrew Training Center (KATC) in Orlando, Florida.

Kratos' Aircrew Training Center incorporates state-of-the-art Virtual Reality and Projection Aircrew Training Devices to train warfighters in the skills needed for mission readiness, such as aerial gunnery, search and rescue hoist training, and cargo sling operations.

Trainees will use multiple aircrew training devices within the KATC to train on techniques and procedures in basic firing, scanning, situational awareness, crew coordination, target acquisition, and rescue hoist and cargo sling operations in various all-weather environments.

"Kratos is dedicated to offering the widest range of options and solutions for custom aircrew training services to maximize ROI for our customers and performance outcomes," said Jose Diaz, Senior Vice President, Kratos Training Solutions. "We look forward to having the Swedish Armed Forces continue to advance their mission training and rehearsal requirements locally, in our state-of-the-art Kratos Aircrew Training Center."

About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS) is a mid-tier government contractor at the forefront of the Department of Defense's Third Offset Strategy. Kratos is a leading technology, intellectual property and proprietary product and solution company focused on the United States and its allies' national security. Kratos is the industry leader in high performance unmanned aerial drone target systems used to test weapon systems and to train the warfighter, and is a provider of high performance unmanned combat aerial systems for force multiplication and amplification. Kratos is also an industry leader in satellite communications, microwave electronics, cyber security/warfare, missile defense and combat systems. Kratos has primarily an engineering and technically oriented work force of approximately 2,800. Substantially all of Kratos' work is performed on a military base, in a secure facility or at a critical infrastructure location. Kratos' primary end customers are National Security related agencies.
