

## **Kratos SecureInfo Cybersecurity Team Appointed as Licensed Air Force Agent of the Certifying Authority (ACA)**

### **Will Provide Comprehensive Information Security Assessments in Support of CyberSurety Mission**

SAN DIEGO, July 11, 2012 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS), a leading National Security Solutions provider, announced today that its SecureInfo cybersecurity group has been appointed by the Air Force as a licensed commercial Agent of the Certifying Authority (ACA).

SecureInfo's selection is based on the depth of its senior information assurance talent and the company's extensive track record of successfully helping the Air Force secure its information assets. SecureInfo, working on behalf of the Air Force Senior Information Assurance Officer (AF SIAO), will serve as an independent and trusted agent; conduct system security assessments; and provide fact-based security analysis under the Air Force Certification and Accreditation Program (AFCAP) and in direct support of program managers and system owners. SecureInfo's designation as a licensed ACA is part of a broad effort to expand the pool of expert resources available to support the AFCAP.

"We are very proud to have been selected as an Air Force ACA and appreciate the confidence the Air Force Senior Information Assurance Officer has placed in our organization," said Christopher Fountain, Sr. Vice President of the Kratos SecureInfo business. "We look forward to supporting the goal of accelerating the validation process and meeting Air Force CyberSurety mission objectives."

#### **About Kratos Defense & Security Solutions**

Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS) is a specialized National Security technology business providing mission critical products, services and solutions for United States National Security priorities. Kratos' core capabilities are sophisticated engineering, manufacturing and system integration offerings for National Security platforms and programs. Kratos' areas of expertise include Command, Control, Communications, Computing, Combat Systems, Intelligence, Surveillance and Reconnaissance (C5ISR), satellite communication systems, unmanned systems, cyber warfare, cybersecurity, information assurance, critical infrastructure security and weapons systems sustainment. Kratos has primarily an engineering and technical oriented work force of approximately 4,400, many of whom hold an active National Security clearance, including Secret, Top Secret and higher. The vast majority of Kratos' work is performed on a military base, in a secure facility or at a critical infrastructure location. Kratos' primary end customers are United States Federal Government agencies, including the Department of Defense, classified agencies, intelligence agencies and Homeland Security related agencies.
