

## **Kratos Awarded \$1.2 Million Public Safety and Security Contract for Surveillance and Biometrics Based Access Control to Protect Critical National Infrastructure**

SAN DIEGO, Jan. 19, 2011 (GLOBE NEWSWIRE) -- Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS), a leading National Security Solutions provider, announced today that its Public Safety & Security Division has been awarded a contract from a leading national digital infrastructure company to provide a range of physical security and surveillance products, solutions and services. Under the contract, Kratos will design, engineer and deploy a state-of-the-art surveillance and security system including access control with biometrics, smart cards, extensive interior and exterior IP-based CCTV, alarm monitoring, photo ID and biometric enrollment, and a fiber-optic system. The effort is part of a large, critical infrastructure facility construction project that requires comprehensive security and surveillance services. The project is expected to be completed by the end of second quarter, 2011. The value of this critical infrastructure security contract is approximately \$1.2 million and was awarded to Kratos' Mid-Atlantic office.

"This award represents our seventh security integration deployment with this large, nationally-recognized and well-respected customer," said Fred Thomas, General Manager of Kratos Mid-Atlantic. "We are pleased to be the integration partner of choice to help this customer with its security controls and to help mitigate any exposed security deficiencies in the future. This work requires the support of knowledgeable and experienced security and surveillance professionals capable of delivering a wide range of security solutions, and we are happy to have been selected for these projects."

### **About Kratos Defense & Security Solutions**
